

QNUK Level 3 Award FPOSi – First Person on Scene (International) (RQF)

The QNUK Level 3 Award FPOSi First Person on Scene (International) (RQF) develops the knowledge, skills and competencies required to be able to deal with a wide range of pre-hospital care emergencies and ensures learners can provide help for a range of medical conditions and trauma related injuries. This course focuses on additional interventions and management of serious incidents with the expectation of longer-term management of the casualty at the scene.

Why choose Control Risks?

Our established international presence and unrivalled knowledge of diverse security and operating environments make us a recognised global leader in security, risk and resilience training, with a proven track record for delivering high-quality courses around the world.

We deliver training from facilities in Europe, North America, Latin America, East and West Africa, the Middle East and Central Asia and can conduct training directly at your facilities and project locations.

The training package includes:

- ▶ Scene management and safety
- ▶ Advanced airway management
- ▶ Airway adjuncts – oropharyngeal airways (OPAs) and nasopharyngeal airways (NPAs)
- ▶ Oxygen administration (optional extra)
- ▶ Catastrophic haemorrhage control
- ▶ Tourniquets
- ▶ Specialist trauma dressings such as Israeli and Olaes modular dressings
- ▶ Blast and ballistic injuries
- ▶ Managing trauma related injuries
- ▶ Head, spinal, pelvic, chest injuries
- ▶ Fractures
- ▶ Hypothermia and Hyperthermia

FPOSi – First Person on Scene Training

Over four days, this training includes hands on experience with multiple casualty management and medical planning exercises, as well as a systematic approach to the management of trauma. This course includes a mix of taught theory and practical demonstrations. This course includes a mix of taught theory and practical demonstrations including medical scenarios based on potential threats and situations that may be encountered when operating in your chosen profession.

Who should attend?

Designed for individuals working in the security industry or travelling to hostile, adverse, remote or challenging environments. This course is used by those who need to go beyond standard level First Aid, who may have access to more advanced medical equipment and resources. Due to the nature of this qualification, learners should be physically capable of undertaking practical assessments.

Certification

Upon successful completion, candidates will be awarded certification – The QNUK Level 3 Award in First Person on the Scene (International) (RQF). This qualification meets the SIA criteria for First Aid. Certificates are valid for 3 years from the date of issue.
