

High-Risk Environment training

The world is facing unprecedented challenges, from geopolitical risks, pandemics, regional conflict and war, terrorism and increasing levels of organized and opportunistic crime. These risks have influenced the way in which boards and senior management teams make investment decisions such as expansion into emerging markets, continued investment into ongoing projects, but also the level of exposure they are willing for their employees to take and importance they place of duty of care.

These challenges do though offer significant potential for growth driven by the ability to identify and manage emerging threats, understand the risks at an operational level and ensure employees are trained to mitigate these risks through sound practices and behaviours, and critically, respond in a rational and controlled manner should an incident occur.

Why choose Control Risks?

Our established international presence and unrivalled knowledge of diverse security and operating environments make us a recognised global leader in security, risk and resilience training, with a proven track record for delivering high-quality courses around the world.

We deliver training from facilities in Europe, North America, Latin America, East and West Africa, the Middle East and Central Asia and can conduct training directly at your facilities and project locations.

The training package includes:

- Personal security awareness
- Diversity and cultural awareness
- Conflict management and physical intervention
- Itinerary planning and journey management
- Customs and security checks
- Hotel and office security
- Reaction to an incident
- Kidnap response and survival
- Basic and trauma medical training

High-risk environment training

Control Risks' standard 3-day high-risk environment course provides attendees with the knowledge and skills to prepare for and respond to conflict situations, emergencies and traumatic events in different risk environments where they may be required to work or live through a mix of classroom-based and practical learning.

Who should attend?

Our HREC course is designed for staff, employees or dependants that may be visiting, working or living in medium to high-risk environments. The course is designed to accommodate all levels of experience from those deploying for the first time to experienced individuals who require refresher training.
