

Control Risks is a specialist risk consultancy that helps to create secure, compliant and resilient organizations in an age of ever-changing risk. Working across disciplines, technologies and geographies, everything we do is based on our belief that taking risks is essential to our clients' success.

We provide our clients with the insight to focus resources and ensure they are prepared to resolve the issues and crises that occur in any ambitious global organization.

We go beyond problem-solving and give our clients the insight and intelligence they need to realize opportunities and grow. From the boardroom to the remotest location, we have developed an unparalleled ability to bring order to chaos and reassurance to anxiety.

Our people	Working with our clients our people are given direct responsibility, career development and the opportunity to work collaboratively on fascinating projects in a rewarding and inclusive global environment.
Location	Saginaw, Michigan
Engagement	Full-time
Department	Embedded Consultant Services
Manager	Principal
Job purpose	We are looking for an embedded analyst to work in our Client's 24/7 Global Operation Center. The Analyst's responsibilities are twofold: to serve the client's travelers and permanent duty station staff across the globe, and to monitor and respond to real-time security or crisis incidents and safety situations. Both responsibilities must be performed in a thorough and timely manner to ensure the safety and well-being of the client's staff and facilities. Under the general supervision of the Senior Analyst and GSOC Team Lead, the Junior Analyst performs the majority of monitoring, response and communication duties within the operational environment of the 24/7 Global Security Operations Center (GSOC). This role is based in Saginaw, Michigan.

Tasks and responsibilities

- ▶ Monitor and analyze global events to identify and assess threats to Client's specific international operations, assets and personnel
 - ▶ Define priorities for in-depth analysis on selected locations relevant to Client's global interests
 - ▶ Lead or collaborate on production of in-depth analytical products and requests for information (RFIs)
 - ▶ Monitor social media on a regular basis for threats and security-related intelligence with regard to risks to Client
 - ▶ Lead production of specific briefings or presentations
-

-
- ▶ Provide location-based reporting for executive travelers
 - ▶ Provide location-specific intelligence, including active and archived alerts; city and country intelligence; and interactive maps
 - ▶ Provide email notifications of threats based on geographies
 - ▶ Relate airline safety information to traveler itineraries, ensuring they meet minimum safety criteria
 - ▶ Identify preferred (and not preferred airlines) based on security criteria
 - ▶ Other duties as assigned

Knowledge and experience

- ▶ Monitor and analyze global events to identify and assess threats to Client's specific international operations, assets and personnel
- ▶ Define priorities for in-depth analysis on selected locations relevant to Client's global interests
- ▶ Lead or collaborate on production of in-depth analytical products and requests for information (RFIs)
- ▶ Monitor social media on a regular basis for threats and security-related intelligence with regard to risks to Client
- ▶ Lead production of specific briefings or presentations
- ▶ Provide location-based reporting for executive travelers
- ▶ Provide location-specific intelligence, including active and archived alerts; city and country intelligence; and interactive maps
- ▶ Provide email notifications of threats based on geographies
- ▶ Relate airline safety information to traveler itineraries, ensuring they meet minimum safety criteria
- ▶ Identify preferred (and not preferred airlines) based on security criteria
- ▶ Other duties as assigned

Qualifications and specialist skills

- ▶ A bachelor's degree in history, political science, international relations, intelligence analysis, criminal justice, regional studies or a related discipline, with a minimum of five years of private sector working experience (in lieu of private sector experience, minimum requirement former US intelligence community experience)
 - ▶ The candidate's experience, education or training must demonstrate proficiency in professional intelligence gathering
 - ▶ Demonstrated knowledge of security analysis and risk assessments of physical security or security operations and planning
 - ▶ Analytical expertise and time/stress management skills to accurately draw conclusions by synthesizing raw data and information from multiple, unrelated sources into a finished comprehensive product; this requires a strong ability to
-

identify and solve complex problems and carry out responsibilities with little or no supervision, at times under adverse and stressful conditions

- ▶ Ability to deal effectively with others in order to collect, evaluate and organize pertinent facts and employ multi-disciplinary analysis with and without systems support
- ▶ Training and experience in Microsoft Office products, which are used to prepare clear and concise reports
- ▶ Previous work experience in a security or analyst role; background or experience working with global organizations
- ▶ Keen understanding of social media monitoring techniques
- ▶ Experience or training in developing and recommending policy, organizing and carrying out specific programs, as well as evaluating and recommending changes in methods of intelligence operations
- ▶ Ability to develop recommendations regarding policies and initiatives
- ▶ Ability to evaluate and recommend changes in methods of intelligence gathering
- ▶ Ability to present and defend intelligence positions to a variety of audiences, including staff, representatives and members of the board
- ▶ Ability to interact effectively at all levels of an organization and across diverse cultural and language barriers
- ▶ Ability to quickly adapt to the external environment and organization
- ▶ A strong customer service focus and ability to build and maintain trusting relationships
- ▶ Availability to work on emergency situations during off-hours and if necessary, for an extended period of time
- ▶ Strong interpersonal communication skills and awareness of business needs
- ▶ Ability to be a positive and effective team member
- ▶ Ability to effectively manage multiple projects simultaneously and prioritize
- ▶ Excellent verbal, written and presentation skills

Behaviours

All employees are expected to display behaviors reflective of our company values: Integrity and Ethics, Collaboration and Teamwork, Commitment to People and Professionalism and Excellence.
