

High Risk Managed Services in Mozambique

Control Risks helps organisations that want to establish and expand in Mozambique be secure, compliant, and resilient.

We have first-hand knowledge of the complex security landscape found in Mozambique. From the severe disruption of transport routes to armed militant and criminal groups conducting the kidnap for ransom of international visitors. Fulfil your duty of care obligations by providing protection for your team that prepares, safeguards, and responds when you need it most.

Be confident when your team are working and living in Mozambique that they're in safe hands

It's our unparalleled approach to safety and our in-depth knowledge of the region that means that we continue to be the preferred security provider for many energy companies, international organisations, high-profile diplomatic missions, and non-governmental organisations in Mozambique.

Control Risks is the only western security consulting firm with a full-service presence across Africa consistently achieving unsurpassed standards of safety and dependability.

We apply the strictest ethical, legal, and globally recognised regulatory standards. Our dedicated compliance team ensures that our work in Mozambique continually conforms to the changing regulatory requirements, providing uninterrupted service for our clients.

Always on hand

Security you can trust

- ▶ We provide low profile and overt security based on real-time information feeds and analysis from our in-country operational command centres
- ▶ We own and maintain a widely deployable armoured and soft-skin vehicle fleet, providing reliability and quality at a scale to meet your operational needs

Planned with care

Let us deal with the complexities of working and moving in Mozambique

- ▶ Situational awareness by discreet tracking systems and real-time information feeds
- ▶ Our unmatched safety record is a testament to our method of providing security - based on up-to-date information and analysis
- ▶ We own and maintain our operational assets and do not rely on subcontractors, so you can continue business without interruption

Quality-assured service

Peace of mind when working in Mozambique

- ▶ Control Risks recruits, trains, and retains staff from the best and most qualified professionals around the world
- ▶ Our staff are trained to globally recognised standards. For example, all our drivers pass the UK standard driving test, and our security team leaders must achieve FPOSi certification (the internationally recognised award for high threat and remote environment medics)
- ▶ We take our obligations and responsibilities for health, safety, and environment (HSE) very seriously. Our systems comply with industry best practice, national legislation, and international standards such as ISO 9001, ISO 18788, ISO 45001, PSC1, ICOCA, The Voluntary Principles and, the UN Global Compact

Well-connected

Benefit from our knowledge and local network

- ▶ Access our impressive network of local and international security professionals
- ▶ Our local and national liaison experts and compliance teams ensure we adhere to government regulations
- ▶ Control Risks is wholly independent and therefore unaffected by stock market fluctuations or political agendas. Our independence means we are motivated only by your best interests
