Control Risks partners with financial services advisory firm Armstrong Wolfe

Firm brings non-financial risk advisory services to the Chief Operating Officer community

Control Risks is delighted to announce that it has become a Strategic Alliance Partner of financial services advisory firm, Armstrong Wolfe, with effect from 1 January 2023.

Armstrong Wolfe is a global financial services advisory firm focused on the office of the Chief Operating Officer (COO) and has a worldwide COO community of more than 5000 members. Armstrong Wolfe seeks to support this community by providing thought leadership, promoting cross industry dialogue and supporting collaboration, design and execution.

Mike Wolff, Partner at Control Risks sitting on the Global Markets & Partnerships team, said: “I am thrilled at the opportunity for Control Risks to work with both Armstrong Wolfe and its global membership among the global Chief Operating Officer and Chief Controls Officer communities in investment banking and asset management. These institutions are facing a wide range of non-financial risks that we at Control Risks are well placed to tackle.

The world is facing extraordinary pressures which will multiply and intensify, and the COO and CCO community is being asked to originate and deliver solutions at an organizational level; we can assist with that journey as we are doing with many of our other global clients.”

CEO of Armstrong Wolfe, Maurice Evlyn-Bufton, said: “We were mobilising the COO and Chief Control Officer Community before the pandemic to look more holistically at threat management. Covid and then the Russia – Ukraine crisis accelerated the need to look at the framework and approach to managing non-financial risk.

We could not wish for a better partner than Control Risks to help the COO community navigate the uncharted waters of the very different and challenging world we have found ourselves in. Control Risks’ insights at all levels will enable us to add value for COOs as they look to define, translate, and manage these risks. The quality of expertise throughout Control Risks, from analyst to partner, gives us great confidence this strategic alliance will go from strength to strength as we move into 2023 and beyond.”

- END -

About Control Risks

Control Risks is a specialist global risk consultancy that helps to create secure, compliant and resilient organizations in an age of ever-changing risk. Working across disciplines, technologies and geographies, everything we do is based on our belief that taking risks is essential to our clients' success. We provide our clients with the insight to focus resources and ensure they are prepared to resolve the issues and crises that occur in any ambitious global organization. We go beyond problem-solving and provide the insights and intelligence needed to realize opportunities and grow. Visit us online at www.controlrisks.com

About Armstrong Wolfe

Armstrong Wolfe is a global financial services advisory firm focused on the office of the Chief Operating Officer (the COO). Our International COO Community (iCOOC) has established a managed network of over 5000 COOs one degree of separation from each other. We empower this community by providing thought leadership, promoting cross industry dialogue and supporting collaboration, design and execution. We have a unique blend of COO functional expertise which enables us to support iCOOC members through our advisory, project management and business management training institute. We support industry wide efforts addressing diversity and inclusion initiatives through our Women in the COO Community and provide career opportunities for all underrepresented groups with the COO Academy; with a mission to promote these individuals to leadership positions within Financial Services. Our mission is to bring worldwide COOs into a managed network one degree of separation from each other. Our purpose is to empower this community by providing thought leadership, promoting cross industry dialogue and supporting collaboration, design and execution.
