## So why Control Risks?

Our established international presence and unrivalled knowledge of diverse security and operating environments make us a recognised global leader in security training, with a proven track record for delivering high-quality courses around the world. Our instructors are selected for their breadth of knowledge and expertise, having lived, and worked in high-risk and complex regions and are supported by the very latest operational knowledge and country information provided by our global team of risk analysts and consultants.

We are recognised as one of the global market leaders in security training and a Pearson-approved centre to deliver BTEC qualifications which are about developing real skills, for the real world. Pearson is the world's leading learning company, with 40,000 employees in more than 70 countries working to help people of all ages to make measurable progress in their lives through learning.

**Developed and delivered by experienced security risk management practitioners who have supported our clients in some of the most challenging operating environments globally.**

**Course material based on the latest international standards and best practice guidance, integrated with real-life issues and challenges in the field of security, risk and resilience management.**

**Includes real-life case studies examples and incident analysis provided by our global team of over 100 analysts.**

Technology	Insurance and finance	Oil and gas	Construction	Manufacturing	Legal services	News agencies
						
Mining	Maritime	Government	Humanitarian	Security	Retail and eCommerce	Media broadcasters

The course was an absolute eye opener! Coming from a security background I found the information presented was in line with current industry standards and relevant to my role. More importantly it introduced me to new ideas, methods, and approaches, making me a more effective and knowledgeable security consultant. I would certainly recommend this course to anyone in this line of work or who is thinking of working within the security and risk sector.

Charlotte, Security Consultant
