

KENYA ELECTIONS MONITOR 2017

The August 2017 general elections are set to be a tight race. With pollsters proving unreliable in several recent major elections, preparing for and navigating the polls is likely to be a challenge for any organisation.

Leveraging our deep expertise and local understanding, Control Risks has developed a range of tailored services to help you stay informed, prepared and safe throughout the election period.

OUR SOLUTION

KENYA ELECTIONS MONITOR 2017

A weekly report comprising analysis of key events, media summary and upcoming events to keep you up-to-date on the latest developments.

ADD-ON SERVICES

- ✓ **DAILY MEDIA DIGEST.** A daily service that provides you with a summary of media reporting without having to trawl through newspapers and online services.
- ✓ **ROUND TABLE BRIEFINGS.** Monthly face-to-face briefings to update you on the key developments and provide a high-level discussion forum with Control Risks' experts.
- ✓ **ELECTION EVENT, INCIDENT ALERTING.** Rapid alerting via SMS of significant events and incidents that may impact safety.

COMPLIMENTARY PRE-ELECTION HEALTH CHECK

For an opportunity to meet with our experts to determine your organisational preparedness.

Additional Support

For bespoke consultancy, tailored to meet your organisation's requirements, our team of experts offers:

RISK ASSESSMENTS

Control Risks helps clients to assess the risks facing their operations, and to create strategies and policies to protect their people and assets, and reduce the likelihood of losses. Areas of expertise include supply-chain risk management, security design, security reviews and audit, workplace violence prevention, and providing security training and support.

CRISIS MANAGEMENT AND PREPARATION

Control Risks can assess your current crisis management and business continuity preparedness by reviewing and developing plans, and conducting training for leadership and incident management teams.

DIRECT SECURITY MANAGEMENT SUPPORT

Control Risks can provide dedicated security risk consultants to your organisation on the ground to provide temporary or long-term term security management support to prepare for the elections, and to directly coordinate incident management and response.

POLITICAL AND ECONOMIC ANALYSIS

Strategic analysis and forecasting of the operating environment and key risks in Kenya can provide your organisation with the necessary information and confidence to make high-value, long-term business decisions and to adopt the best approach to mitigating risks.

LOCATION SPECIFIC AND SECTOR ANALYSIS

Incident monitoring combined with in-depth analysis of the key risks to your sector and the location of your operations provides actionable insights of direct relevance to your day-to-day operations and strategic planning.

BUSINESS INTEGRITY REVIEW

In a context of enhanced regulatory scrutiny, increasingly sophisticated fraud and corruption schemes, and cybercrime, we help clients conduct cost-effective and risk-focused integrity checks that provide insight into an organisation's maturity.
