

High Risk Managed Services in Iraq

Control Risks helps organisations that operate in Iraq be more secure, compliant, and resilient.

It's our unparalleled approach to safety and our in-depth knowledge of the region that means that we continue to be the preferred security provider for many energy companies, international organisations, high-profile diplomatic missions and non-governmental organisations (NGOs) in Iraq.

Control Risks is the only western security consulting firm with a continuous presence since 2003 in the Baghdad International Zone, consistently achieving unsurpassed standards of safety and dependability.

We apply the strictest ethical, legal, and globally recognised regulatory standards. Our dedicated compliance team ensures that our work in Iraq continually conforms to the changing regulatory requirements, providing uninterrupted service for our clients.

How we can help you in Iraq

High Risk Managed Services in Iraq

Our presence in Iraq

Erbil

Baghdad

Basrah

Quality-assured service

Peace of mind when working in Iraq

- ▶ Control Risks recruits, trains, and retains staff from the best and most qualified professionals around the world
- ▶ Our staff are trained to globally recognised standards. For example, all our drivers pass the UK standard driving test and our security team leaders must achieve FPOSi certification (the internationally recognised award for high threat and remote environment medics)
- ▶ We are fully certified and are accredited to the highest international benchmarks. ISO 9001, ISO 18788, ISO 45001, PSC1, ICOCA, The Voluntary Principles and, the UN Global Compact

Always on hand

Security you can trust

- ▶ We own and maintain a widely deployable armoured and soft-skin vehicle fleet, providing reliability and quality at a scale to meet your operational needs
- ▶ We provide low profile and overt security based on real-time information feeds and analysis from our in-country operational command centres

Planned with care

Let us deal with the complexities of working and moving in Iraq

- ▶ Situational awareness by discreet tracking systems and real-time information feeds
- ▶ Our unmatched safety record is a testament to our method of providing security – based on up-to-date information and analysis
- ▶ We own and maintain our operational assets and do not rely on subcontractors, so you can continue business without interruption

Well-connected

Benefit from our knowledge and local network

- ▶ Access our impressive network of local and international security professionals
- ▶ Our local national liaison experts and compliance teams ensure we adhere to government regulations. This means that we provide continuous freedom of movement throughout Iraq, obtain all necessary licenses, and swiftly react to new requirements or unexpected obstacles, therefore avoiding delays that could impact your business
- ▶ Control Risks is wholly independent and therefore unaffected by stock market fluctuations or political agendas. Our independence means we are motivated only by your best interests

Above and beyond

Life support and accommodation

- ▶ Our deluxe, purpose-built secure accommodation and life support services ensure that your staff are protected, comfortable, and supported during their stay in Iraq. For more information ask us about the Carmen Business Centre
